Well, we did it again! Our "Tool & Etc. Auction" was a very big success. Many of you got to get rid of unwanted tools & etc. from you shops and most of you got some real bargains. Everyone was a WINNER! The club is \$915.00 healthier. Special thanks got to our Auctioneer Everett Elkins!

This is exactly what I have been saying in this column the last few months - you all are a collection of great people that get together to make a great club.

Now is the time to get serious and sign up for the club picnic. More information is included elsewhere in this newsletter. Come on - lets make it a success, too!

MONTHLY PROGRAM

As reported by John Lucas:

The tool auction was a lot of fun. Everett was our auctioneer and did a wonderful entertaining job. After he tried to sell George his own compass things really got rolling. There was a lot of competitive bidding that made things fun.

I think everyone got a sampling of wood to play with and we all got at least one tool that will we "needed". I wanted the 2 man crosscut saw but let Bill have it. I think he's going to put his wife on the other end of it. There were a lot of great pieces of wood donated by Bobby and others. I hope to see some of it come back as good projects. A lot of sandpaper in the 320 grit size went also. That means no more sanding marks should show up on your pieces. There was so much stuff on the on the table I don't even remember what all was there. If you didn't come you missed a lot of fun and I say that as someone who doesn't usually like auctions. The club made over \$900. Thanks everyone who participated. Start saving your stuff for next year.

LARRY HASIAK DEMO DAY

Professional turner Larry Hasiak gave a one-day demo for our club at Bobby Clemon's shop on July 16. Below is a report from Jon Reiver. The Larry Hasiak demo at Bobby Clemons' house was the best one I ever went to. It was worth every penny. (and that's just for the chocolate peanut butter ice cream. Larry was an extremely affable and freindly guest, very down to earth as well as very talented. He demonstrated by making a beautiful closed small mouth vessel with a corian insert, and made it look easy. He also rapidly made some ornaments out of multicolored wood, which he sells. He donated all of his creations to the club for the auction. If you haven't seen him work, you missed an excellent demo.
