Meeting Minuets:

The March, 09 meeting was called to order at 6PM by club President, Gil Buffkin with 26 members present. There was no old business. The new business discussed was about our club's web page and newsletters being entered in the AAW contest.

Different "Tabs" of the web page were assigned to different people to be checked for any errors. The treasurer report was given by Rod Smith. This months demo by Jon Reiver was given on using the skew chisel. The Challenge of the Month, Instant Gallery and raffle was held and the meeting was adjourned.

Monthly Demo: . A very interesting demo on the use of the skew chisel was given by Jon Reiver. He made a complete table leg by using only the skew. He showed how to make beads, coves, lambs tongues, straight sockets, tapers and a ball for the foot of the leg. He discussed how

to use the various parts of the skew's cutting edge. A hands-on demo was also given to anyone who wanted to try using the skew.

Safety Tip Of The Month: Never leave a lathe running unattended. Be certain to turn off the power to the lathe when not in use.

Use a well balanced stance when turning while maintaining a firm, comfortable grip on the tool.

More Notices

John Lucas Turning Day

The turning day at John Lucas's house will be Saturday, April 18, 2009.

Directions to John's house

John lives in Baxter at 529 1st Ave. N. Go to exit 280 on I-40 and go North to the second stop sign which is hwy 70. Take a left which is going west for about 1 mile. You'll see a road on the left that says Baxter business district. Take that road and go to the third house on the left. It has a green mailbox. Pull around behind the Garage and park in the back so we will have enough room. If it's raining and muddy we may have alternate parking. It would help if you can carpool to cut down on the cars. Hope to see you all there at least for a little while. If you get lost call John at 931-858-2846
