Wood of the Month

John Lucas turned a textured Christmas Ornament. Joyce Schiel won the wood of the month for July.

Club challenge: Ear Ring Stand

June Meeting Minutes

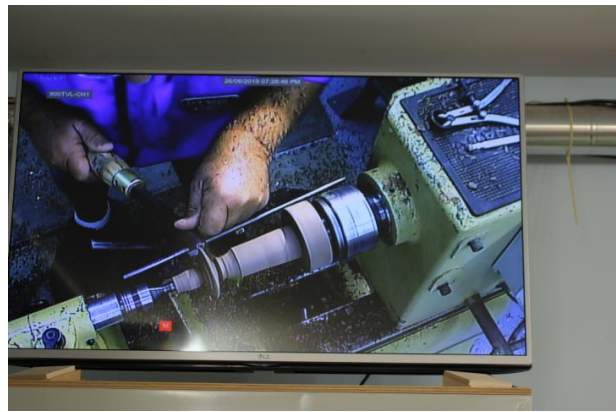

- The Wig Stand and Beads of Courage Boxes are going to be an ongoing mission for the club moving forward. Keep them coming as the need for both is great.
- The Board came up with a way to raise funds for scholarships in Wood Turning related courses for club members. Each month tickets will be sold for \$5.00 each for this fund and at the Christmas Party in December a winner will be drawn for the scholarship to John C Campbell or Arrowmont for the **tuition only** for a week's class. Any short fall in the funds will be made up by the club. After attending their class the winner is to give a description of what they learned to the club.
- The Club Picnic that was held on Saturday, June 15, 2019 was attended by around 30 club members and their significant others. There was plenty of food and drink and some stinging telling by one of the club members. A good time was had by all that attended.
- Gun & Knife Show this year will be August 3&4, 2019 and the club has secured a full list of turners.
- The AAW is also offering a \$50.00 discount per person for groups of ten (10) or more club members for the International Symposium in Raleigh, NC next July 2019. Let's try to put a group together to attend.
- Craft Supply is starting a new Loyalty Program for members of the club. Whenever you buy from them you will receive cash points that can be used for future purchases.
- An updated membership roster has been sent to Hartville Tools. If you order from them mention that you are a member of the Cumberland Woodturners and you will get a 15% discount
- We encourage people to keep turning Beads of Courage boxes and Wig Stands as the need never ends.
- We encourage all members to visit the website: www.cumberlandwoodturners.com.
- Bill Atchison reported a balance of \$3798.28, plus \$870.00 to be deposited from last month's auction.

Safety: It was noted that turning wind damaged wood can have serious consequences due to stress cracks caused by the wind twisting and falling that doesn't show up until turning.

GORDON SLOANE EAR RING STAND DEMO

By Gordon Sloane

Gordon performed a demo turning an Ear Ring Stand based on an article in the AAW, American Woodturner magazine February 2019, Vol. 34, No.1 by Kip Christensen. He outlined the steps he takes beginning with placing a recess tenon on the base of the piece after rounding up the blank. He went on to use a special hole drilling jig that he had gotten from the author of the article which fits directly on the piece for drilling the holes. He then demonstrated different tool techniques he uses to achieve the desired look and form of the piece. Good job Gordon
